LegalEase: AI-Powered Legal Document Generator

AI-assisted document creation made simple, fast and accessible

- Generate legal documents from simple user inputs.
- Use AI to create structured, professional drafts.
- Reduce time, complexity and repetitive manual work.
- Designed for individuals, startups and small businesses.

Problem Statement

Creating legal documents can be difficult for non-lawyers.

- Legal language is often complex and difficult to understand.
- Drafting documents manually takes significant time.
- Professional legal drafting can be expensive for simple needs.
- Users may not know which clauses or details are required.
- Errors or missing information can reduce document quality.

Proposed Solution

LegalEase combines guided input with AI-powered document generation.

- User selects the required document type.
- A simple form collects names, dates, terms and other details.
- AI converts the information into a structured legal draft.
- The user can review and edit the generated document.
- The final document can be exported for further use or legal review.

Key Features & Workflow

Simple workflow from user input to a ready-to-review document

- Document Templates — NDA, rental agreement, employment agreement and more.
- AI Generation — creates context-aware clauses and document structure.
- Smart Forms — asks only for relevant information.
- Edit & Review — allows users to modify the generated draft.
- Export — save the document in a convenient format.
- Workflow: Select → Enter Details → Generate → Review → Export

Benefits & Future Scope

Making legal-document preparation more accessible

- Faster drafting and less repetitive work.
- Easy-to-understand interface for non-technical users.
- Lower initial drafting effort for common documents.
- Future: multilingual document generation.
- Future: clause suggestions, document comparison and version history.
- Future: integration with e-signature and secure document storage.
- Important: AI-generated documents should be reviewed by a qualified legal professional when appropriate.
